About our Meat

We feel it is important to know where our food comes from and how it was raised. Thus, it is our goal to inform you about our products so you also can make informed decisions. Some of the key points about our meat products are listed below, but if you'd like to see the pastures and animals for yourself, we invite you to visit the farm. You are always welcome!

- All animals, feed & land are **certified organic**.
- Animals are **pasture-raised**, free to roam, root and peacefully graze our lush hillsides.
- Our meat is processed at Ledebuhr Meat Processing, a **small-scale, family-owned and operated certified organic plant** with a USDA inspector on-site to inspect *each* animal. Every animal is **hand-cut** by professionals. Impressively clean!
- All beef are **grass-fed** on mineral-rich pastures. They are offered a free choice ration of organic grain for the last 5 weeks while still on pasture, making the meat lean and tasty.
- All beef is **dry-aged** for 2 weeks prior to cutting to enhance flavor & tenderness.
- All processed products are made with **organic ingredients** and are **free of nitrates and nitrites**. This includes our smoked hams & bacon as well as franks and specialty sausage products.
- All meat is fresh-frozen and promptly delivered to your neighborhood in a cooler.

•Our cows travel only 60 miles in their life. Our pigs travel just 100 miles.

Delivery Information

- Our meat is delivered freshly frozen in Styrofoam coolers, in boxes with your name on it. Please bring a cooler or sturdy box to your delivery site and transfer your order into them to take home, leaving the coolers and boxes at your site for the farm to pick up and re-use.
- Order early! Orders are filled on a first come, first served basis. No orders are reserved until payment in full is received. You may pay by check or by one time ACH payment; we do not take credit cards.
